Dull Bit Report

6-3/4" CR511-SR(BR)

Serial# 40478

Operator: **Oxy**
Rig: **H&P 635**
Lease: **Allen 39 #11H**
County: **Reeves**
Depth In: **10,847'**
Depth Out: **15,358'**
Drilled: **4,511'**
Hours: **57**
ROP: **79.14**

Inner	Outer	Dull Characteristic	Location	Bearing	Gauge	Other	Reason Pulled
0	2	WT	S	X	I	CT	TD

Blade 1	Blade 2	Blade 3

Blade 4	Blade 5

Comments: **The bit Finished the section in one run with very good directional control. This was a Wolfcamp horizontal. The bit shows wear and chipped cutters in the outer shoulder area only, damaged by impact probably due to the inconsistent lithology it drilled.**
